ABOUT ME

I am a singer, songwriter, and storyteller whose music opens a door into the most intimate corners of the soul. Taking inspiration from the emotional depth of Sleep Token and the raw vulnerability of Billie Eilish, I like to write from parts of myself that I rarely let others into, but through my music, I invite listeners into my most vulnerable moments.

Whether it's songwriting, vocal work, or collaborating on ideas, she's always present and pushing for the best outcome. Paris creates a safe and motivating environment that brings out the best in everyone she works with. I'd recommend her to anyone looking to create music with depth, soul, and impact."

— Remi Rorschach

"I have previously had the pleasure of working with Paris. Within each project, Paris has always shown the ability of managing the group so tasks never fall behind and stick to the deadlines. As a musician, Paris shows drive and passion towards her vocal recordings, putting in numerous amount of hours to perfect a track, whether it being her own or a clients project.

Paris is bubbly and energetic to be around when working with, but also knows when to be serious during important tasks, creating a happy fun working environment with a professional output."
